10th March**
please book early as
places are limited

No VC Available

This engaging program is primarily designed for all medical, nursing, allied health and support staff working in Older Adult Mental Health.

The images are inspired by Dr Suess's theme "Oh the places you will go" and reflects that the recovery journey is not linear, at times there will be uphill battles and the road may be long and winding.

Facilitating Recovery

- Emphasises the importance of ensuring a compassionate, person centred, approach to facilitating recovery
- Improving rehabilitation for people with cognitive impairment, including depression, delirium and dementia and Practical tools to support recovery: Looks at facilitating recovery for older adults with cognitive impairment by utilising a range of approaches.
