# LAUNCH

## Trauma Informed Care Module

**Friday 3rd December 2021**  
**8:30am — 9:30am**

**Fiona Stanley Hospital,**  
**Education Building, G1 Lecture Theatre**  
**VC via MS Teams**

Neurolinks to past stressful experiences, including inherited trauma, can impact on our responses to new situations and interactions with others. Our new Trauma Informed Care module is designed to help health professionals to recognise, and respond appropriately to, people who are experiencing difficulty interacting with the health environment, due to previous experiences, and to provide a safe and empathetic space to provide compassionate health care.

### **Keynote Speaker:**

**Dr Ann O'Neill**, Founder of [angelhands](#), TEDx Speaker, Academic and Lived Experience Trauma Expert.

Tea and Coffee will be provided after the presentations

Scan the above QR code or [click here to register](#) by the 26th November
