HANDWASHING PARODY FROM IERAMAGADU

This handwashing parody was inspired by Gabby Millgate who lived in Roebourne Ieramagadu once upon a time.

The Ngaarda Media team would love to see the video the children made at the Woden Valley Child Care Centre about hand washing!

Yindjibarndi elder, Tootsie Daniel features in this film and has been spreading the message of safety and hygiene through the Coronavirus pandemic on her Ngaarda Media radio program.

Here is a message from Gabby who came up with the parody!

More Help

St Vincent's Heart Health and the Heart Foundation would like to acknowledge the traditional custodians of the lands where we live, learn and work and pay respect to Elders past and present.

Aboriginal and Torres Strait Islander viewers are warned that this website may contain images and voices of people who have died.
